

INVITATION TO

RIVA RUN & FUN 2022

15-19 JULY
WEST COAST OF SWEDEN

WELCOME TO THE SWEDISH WEST COAST

The wonderful west coast of Sweden is unique with its fine rocks, beaches and islands. It is a beloved tourist destination for the holidays and for many the west coast of Sweden equals summer.

Bohuslän belonged to Denmark-Norway until it was ceded to Sweden in the Treaty of Roskilde in 1658. The commercial fishing of herring increased in the 18th century, and the province flourished during a major herring period around 1747–1809. Many small fishing communities grew up around the coast.

Before the large scale fishing of herring started, Bohuslän had a considerable forest cover. Timber was once the largest export product and main source of income. But with the increased importance of fishing, more wood was needed as construction material for houses and boats, and as fuel for herring oil boilers. Deforestation during the 19th century gave rise to today's rugged, rocky landscape.
